Sudan Big Data Scale Up Proposal (August 2018)

Scaling Activity and Progress Monitoring Plan

Phase	Activity Indicators (with Targets)	Monitoring method	Month												Monitoring Responsibility
			1	2	3	4	5	6	7	8	9	10	11	12	
PHASE 1: HOUSEHOLD SURVEY (October 2018 – February 2019)	1.1 MPI Household Survey Design for at least three states completed. (Yes)	Periodic Meetings, Delivery Reports, and Monitoring Visits.	▓												UNDP and CBS
	1.2 MPI Household Survey for targets states conducted and data analyzed (100 %)			▓	▓	▓									
PHASE 2: Strengthening the "Big Data Mathematical Model" (November 2018 – March 2019)	2.1 Data sharing and raw data preparation method tested and agreed between new telecom partners and Big Data Scientists. (Yes)	Periodic Meetings			▓										TPRA
	2.2 Big Data Mathematical model tested and improved against the new control dataset. (100 %)	Delivery Report and Presentation				▓	▓	▓							TPRA, CBS and UNDP
PHASE 3: BIG DATA ARCHITECTURE and SOP DESIGN (April – July 2019)	3.1 Big Data Architecture Designed. (100 %)	Periodic Meetings, Delivery Report and Presentation							▓	▓	▓				TPRA, CBS and UNDP
	3.2 SOPs for the mathematical model processing finalized. (100 %)								▓	▓	▓				
PHASE 4: ESTABLISHMENT of	4.1 Training conducted and infrastructure setup. (Yes)	Periodic Meetings, and										▓	▓	▓	TPRA, CBS UNDP and other

National Big Data Unit (July – September 2019)	4.2 Knowledge Events conducted (Yes)	onsite visits															partners.
	4.3 National Big Data for Sustainable Development Unit established (Yes)
